Portfolio

vahe.anidzen.com

Hi! My name is Vahe (online known as w33bvGL) — I'm a Full-Stack developer from Armenia. I'm 20 years old and have already worked on dozens of real-world projects — from landing pages to complex microservice systems.

Experience — 3 years 7 months

My professional journey, key roles, and achievements in various companies.

Middle Full-Stack Developer

Developing microservice architecture, frontend, backend, and admin panel. Ensuring fault tolerance and scalability.

DevinIt

Nsoft

February 2023 — September 2024

October 2024 - Present

Middle Full-Stack Developer

Developed internal systems: APIs, admin panels, and integrations with third-party services. Worked with payment gateways and integrated Stripe, BTC, LTC....

Freelance / Startups

January 2022 — February 2023

Full-Stack Developer

Built MVPs from scratch for startups: from design to production. Managed CI/CD, deployment, UX, and support. Communicated directly with clients and improved...
