Portfolio
vahe.anidzen.com

My name is Vahe, I am 20 years old. I am a full-stack developer specializing in Nuxt.js and Laravel. I create fast and convenient web applications, have experience with microservices, APIs (REST and GraphQL), system integration,...

Experience — 3 years 8 months

My professional journey, key roles, and achievements in various companies.

Nsoft — October 2024 — Present

Middle Full-Stack Developer

Developing microservice architecture, frontend, backend. Ensuring fault tolerance and scalability.

DevinIt — February 2023 — September 2024

Middle Full-Stack Developer

Developed internal systems: APIs, admin panels, and integrations with third-party services. Worked with payment gateways and integrated Stripe, BTC, LTC....

Freelance / Startups — January 2022 — February 2023

Full-Stack Developer

Built MVPs from scratch for startups: from design to production. Managed CI/CD, deployment, UX, and support. Communicated directly with clients and improved...
