Vahe Sargsyan

Full Stack Developer
(Nuxt.js Laravel)

3 years 10 months

My name is Vahe, Full-stack developer specializing in Nuxt.js and Laravel. I create fast and convenient web apps, worked with microservices, APIs (REST & GraphQL), system integrations, and complex UI. I value reliability, clean code, and projects that bring real value.

Experience — 3 years 10 months

My professional path, key roles, and achievements in companies I collaborated with.

Nsoft — October 2024 — October 2025

Middle Full-Stack Developer

Wrote code for microservices, worked on frontend and backend. Maintained system functionality and stability. Created a unique currency rates retrieval system.

DevinIt — February 2023 — September 2024

Middle Full-Stack Developer

Developed internal corporate systems: APIs, admin panels, integrations with external services. Integrated payment gateways (Stripe, BTC, LTC), ensured secure and stable transaction processing. Improved application response speed by 25% through backend optimization.

Freelance / Startups — January 2022 — February 2023

Full-Stack Developer

Built end-to-end MVPs for startups: design, development, deployment, support. Implemented CI/CD, automated tests, and monitoring. Improved UX and client processes, accelerating product launch to market by 40%.

Skills
